

September 20, 2016

Dear Lt. Governor Mallott,

Included in this packet are the signatures of a diverse group of 6,000 Alaskans who, for the last two years, have together called for the strongest federal protections of the Taku, Stikine, and Unuk transboundary rivers, upon which their families and communities depend. As you know, these rivers are of the most productive in the State and contribute to the annual multi-billion dollar fishing and tourism industries of Southeast Alaska. In the face of detrimental mining-related impacts from large-scale Canadian mining projects, these 6,000 Alaskans rely upon your leadership to defend and protect the health and safety of Southeast Alaska's communities – and the globally significant fisheries these rivers support.

Below, please find a sample letter addressed to you and Senator Murkowski that thousands of Alaskans from across the political and economic spectrum have come together to sign:

-- Dear Lt. Governor Mallott and Senator Murkowski,

Like you, I am concerned about the threats posed by British Columbia mining at the headwaters of the Taku, Stikine and Unuk Rivers. Thank you for your ingenuity regarding this complex issue.

The current Statement of Cooperation (SOC) with British Columbia, although a step in the right direction, is not enough on its own to protect our rivers, salmon, jobs and culture. We demand enforceable protections – and we know that such protections can only be established between the United States and Canadian federal governments.

Please stand strong for Alaskan interests and work together with United States and Canadian officials to solve this issue and ensure our waters will be safe for generations to come.

Thank you, --

Please continue to defend what keeps Alaska strong and united – our salmon – by working with the federal government to obtain enforceable, funded protections for our rivers.

Regards,

SALMON BEYOND BORDERS, *a campaign driven by sport and commercial fishermen, community leaders, tourism and recreation business owners and concerned citizens, in collaboration with Tribes and First Nations, united across the Alaska/British Columbia border to defend and sustain our transboundary rivers, jobs and way of life.*
